FOOD SERVICE / HORECA PRODUCT RANGE

Why **BASILUR TEA** is special among others?

- Unlike many brands, Basilur does not offer one range of products for retail and another for Horeca/Food service. The quality of tea and packaging will be exactly similar to the high quality of retail packs. The weight per bag will not be reduced in mere search for price advantage.
- The freshness of Basilur tea will be very high with only few weeks from tea harvesting. Unlike big companies, we never pack and keep in stock, instead produce per each order thus giving their customers to drink a very fresh cup.
- Basilur always use foil sachet/envelope which will keep the tea fresh.
- The prices are very competitive compared to its very high quality.
- Basilur tea selling its products in over 54 destinations as a 'Premium/Exclusive' brand. Many guests do not wish to see the same 'mass market' brand in their rooms which are usually available very cheap in any small outlet/CVS store. Especially in executive/luxury rooms, it will be a disaster to offer such mass market brands in their rooms to their VVIP guests. Basilur is not only unique as a premium brand but it also reflects that in their tea.
- We offer a range of hand-made, beautifully crafted wood boxes (even customized with hotel logo) free of charge whenever they offer long term contracts for supplies (1-2 years). This is an extensive range from 3 & 6 open boxes for room service to 6/12/24 closed luxury boxes for lounges, cafes/bars/restaurants.
- We even have branded porcelain to complete the range
